Independent Auditors' Report

To the Members of Northern Arc Investment Adviser Services Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Northern Arc Investment Adviser services Private Limited ("the Company"), which comprise the balance sheet as at March 31, 2019, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's board report, but does not include the financial statements and our auditors' report thereon. The board report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Independent Auditors' Report

To the Members of Northern Arc Investment Adviser Services Private Limited

Page 2 of 8

When we read the board report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions as required under applicable laws and regulations.

Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit / loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditors' Report

To the Members of Northern Arc Investment Adviser Services Private Limited

Page 3 of 8

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls with reference to financial statements and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards

Other matter

The financial information on the date of transition pursuant to adoption of Ind AS by the Company, are based on the previously issued statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2014 (as amended) audited by the predecessor auditor whose report for the year ended March 31, 2017 dated May 5, 2017 expressed an unmodified opinion on those financial statements, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS, which have been audited by us.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we enclose in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the said Order.

(A) As required by Section 143(3) of the Act, we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
- e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164(2) of the Act.
- f) The Company has been exempted from the requirement of its auditor's reporting on whether the Company has adequate internal financial controls with reference to the financial statements in place and the operating effectiveness of such controls (clause (i) of Section 143(3)); and
- g) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations as at March 31, 2019 which would impact its financial position as at March 31, 2019
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

B S R & Co. LLP

Independent Auditors' Report

To the Members of Northern Arc Investment Adviser Services Private Limited

Page 5 of 8

- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from November 8, 2016 to December 30, 2016 have not been made in these financial statements since they do not pertain to the financial year ended March 31, 2019.

(B) With respect to the matter to be included in the Auditors' Report under section 197(16):

The Company being a private company, the provisions of section 197 to the Act is not applicable.

Annexure A to the Independent Auditors' Report
To the members of Northern Arc Investment Adviser Services Private Limited
(referred to in our report of even date)

Page 6 of 8

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a regular programme of physical verification of its fixed assets by which fixed assets are verified every year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. According to the information and explanation given to us, no material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company does not hold any immovable properties. Accordingly, paragraph 3(i)(c) of the Order is not applicable.
- (ii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company is a service company primarily engaged in investment advisory services, accordingly it does not hold any physical inventories. Thus, paragraph 3(ii) of the Order is not applicable.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not granted any loan, secured or unsecured to Companies, firms, limited liability partnerships or other parties covered in the register required under section 189 of the Companies Act, 2013. Accordingly, paragraph 3(iii) of the Order is not applicable.
- (iv) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company does not have any loan, investments, guarantees and security which requires compliance under section 185 and 186 of the Companies Act, 2013. Accordingly, paragraph 3(iv) of the Order is not applicable.
- (v) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not accepted deposits from the public within the meaning of the directives issued by the Reserve Bank of India, provision of Section 73 to 76 of the Act, any other provisions of the Act and relevant rules framed thereunder. Accordingly, paragraph 3(v) of the Order is not applicable.
- (vi) The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any of the services rendered by the Company. Accordingly, paragraph 3(vi) of the Order is not applicable.

Annexure A to the Independent Auditors' Report
To the members of Northern Arc Investment Adviser Services Private Limited
(referred to in our report of even date)

Page 7 of 8

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and services tax, cess and any other material statutory dues have been generally deposited regularly during the year by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of sales tax, service tax, duty of customs, duty of excise and value added tax.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, goods and services tax, cess and any other material statutory dues were in arrears as at March 31, 2019 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of income tax and goods and services tax which have not been deposited with the appropriate authorities on account of any dispute.

(viii) In our opinion and according to the information and explanations given to us, the Company did not have any outstanding loans or borrowings to any banks, financial institutions, government or debenture holders during the year. Accordingly, paragraph 3(viii) of the Order is not applicable.

(ix) In our opinion and according to the information and explanations given to us, the Company has not raised any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. Accordingly, paragraph 3(ix) of the Order is not applicable.

(x) According to the information and explanations given to us, no material fraud on or by the Company by its officers or employees has been noticed or reported during the course of our audit.

(xi) The Company is a private limited company and hence, the provisions of section 197 of the Companies Act, 2013 is not applicable. Accordingly, paragraph 3(xi) of the Order is not applicable.

(xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.

Annexure A to the Independent Auditors' Report
To the members of Northern Arc Investment Adviser Services Private Limited
(referred to in our report of even date)

Page 8 of 8

- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with section 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards. The Company is a private limited company and hence the provisions of section 177 of the Companies Act, 2013 is not applicable.
- (xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xvi) According to the information and explanations given to us and based on our examination of the records of the Company, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Accordingly, paragraph 3(xvi) of the Order is not applicable.

1 Reporting entity

Northern Arc Investment Adviser Services Private Limited was incorporated on September 27, 2012, with the aim to undertake the business of facilitating investments and act as advisors to provide financial/ investment adviser to both Indian and Foreign Investors. The company is a wholly owned subsidiary of Northern Arc Capital Limited. The Company's registered address is No. 1, Kanagam Village, 10th Floor IITM Research Park, Taramani Chennai TN 600113. The Company was Formerly known as IFMR Investment Adviser Services Private Limited.

2 Basis of preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act'), other relevant provisions of the Act.

These financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules 2015 as amended by the Companies (Indian Accounting Standards) Rules 2016. The Company has adopted Ind AS from 1 April 2018 with effective transition date of 1 April 2017 and accordingly these financial statements have been prepared in accordance with the recognition and measurement principles as laid down in Ind AS prescribed under Section 133 of the Act.

As these are the Company's first financial statements prepared in accordance with Indian Accounting Standards (Ind AS), Ind AS 101, First-time Adoption of Indian Accounting Standards has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position and financial performance of the Company is provided in Note 4.

These financial statements were authorised for issue by the Company's Board of Directors on May 20, 2019.

Details of the Company's accounting policies were disclosed in note 3.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest Rupees in lakhs (two decimals), unless otherwise indicated.

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except

Items	Measurement basis
Investments in Mutual funds	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

2.4 Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash or cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

2.5 Use of estimates and judgments

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Information about judgements, estimates and assumptions made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

2.5 Use of estimates and judgements (continued)

i Business model assessment

Classification and measurement of financial assets depends on the results of business model and the solely payments of principal and interest ("SPPI") test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income or fair value through profit and loss that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

ii) Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values.

iii) Impairment of financial asset

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's expected credit loss ("ECL") calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include :

- a) The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a life time expected credit loss ("LTECL") basis.
- b) Development of ECL models, including the various formulas and the choice of inputs.
- c) Determination of associations between macroeconomic scenarios and economic inputs, such as consumer spending, lending interest rates and collateral values, and the effect on probability of default ("PD"), exposure at default ("EAD") and loss given default ("LGD").
- d) Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into ECL models.

iv) Provisions and other contingent liabilities

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the outflow is considered to be probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

These estimates and judgements are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable.

v) Other assumptions and estimation uncertainties

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year are included in the following notes:

- a) Measurement of defined benefit obligations: key actuarial assumptions;
- b) Estimated useful life of property, plant and equipment and intangible assets;
- c) Recognition of deferred taxes;

3 Significant accounting policies

3.1 Revenue Recognition

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind ASs.

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind 115 :

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation.

Fee income

Fees income such as fees related to professional services rendered and arrangement of funds is recognised on point in time or over the period basis, as applicable

Interest income

Interest income is recognised on a time proportionate basis.

Dividend income

Dividend income is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably. This is generally when the shareholders approve the dividend.

3.2 Financial instrument - initial recognition

A Date of recognition

Financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

B. Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at FVTPL, transaction costs are added to, or subtracted from this amount.

C. Measurement categories of financial assets and liabilities

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- i) Amortised cost
- ii) FVOCI
- iii) FVTPL

3.3 Financial assets and liabilities

A. Financial assets

Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- a) How the performance of the business model and the financial assets held within that business model are evaluated and reported to the Company's key management personnel.
- b) The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- c) How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).
- d) The expected frequency, value and timing of sales are also important aspects of the Company's assessment.

Sole Payments of Principal and Interest (SPPI test)

As a second step of its classification process, the Company assesses the contractual terms of financial to identify whether they meet SPPI test. 'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of financial asset (for example, if there are repayments of principal or amortisation of the premium/ discount). The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

Accordingly, financial assets are measured as follows

i) Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii) Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Since, the loans and advances are held to sale and collect contractual cash flows, they are measured at FVTOCI.

iii) Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL.

B. Financial liability

i) Initial recognition and measurement

All financial liability are initially recognized at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial liability, which are not at fair value through profit or loss, are adjusted to the fair value on initial recognition.

ii) Subsequent measurement

Financial liabilities are carried at amortized cost using the effective interest method.

3.4 Reclassification of financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. The Company did not reclassify any of its financial assets or liabilities in the year ended 31 March 2019 and 31 March 2018.

3.5 Derecognition of financial assets and liabilities

A. Derecognition of financial assets due to substantial modification of terms and conditions

The Company derecognises a financial asset, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for ECL measurement purposes.

B. Derecognition of financial assets other than due to substantial modification

i) Financial Assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the contractual rights to the cash flows from the financial asset expires or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount (measured at the date of derecognition) and the consideration received (including any new asset obtained less any new liability assumed) is recognised in the statement of profit and loss.

ii) Financial Liability

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in the statement of profit and loss.

3.6 Impairment of financial assets

The Company recognises loss allowances for expected credit losses on:

- financial assets measured at amortised cost;

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit - impaired. A financial asset is 'credit - impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit- impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default;
- the restructuring of a loan or advance by the Company on terms that
- it is probable that the borrower will enter bankruptcy or other
- the disappearance of an active market for a security because of

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

3.6 Impairment of financial assets (continued)

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward- looking information.

The Company considers a financial asset to be in default when the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held).

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

3.7 Write-offs

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

3.8 Determination of fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company has taken into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 financial instruments: Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date;

Level 2 financial instruments: Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads; and

Level 3 financial instruments –Those that include one or more unobservable input that is significant to the measurement as whole.

3.9 Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Company, at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognized in profit or loss.

3.10 Property, plant and equipment

i. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

ii. Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at April 1, 2017, measured as per the previous GAAP, and use that carrying value as the deemed cost of such property, plant and equipment. (Refer note 4.1 and 5)

iii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iv. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the written down value method, and is generally recognised in the statement of profit and loss.

The Company follows estimated useful lives which are given under Part C of the Schedule II of the Companies Act, 2013. The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset category	Useful Life
Computers and accessories	3 years
Office equipments	5 years

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed of).

3.11 Impairment of non-financial assets

The Company determines periodically whether there is any indication of impairment of the carrying amount of its non-financial assets. The recoverable amount (higher of net selling price and value in use) is determined for an individual asset, unless the asset does not generate cash inflow that are largely independent of those from other assets or group of assets. The recoverable amounts of such asset are estimated, if any indication exists and impairment loss is recognized wherever the carrying amount of the asset exceeds its recoverable amount. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

3.12 Employee benefits

i. Post-employment benefits

Defined contribution plan

The Company's contribution to provident fund are considered as defined contribution plan and are charged as an expense as they fall due based on the amount of contribution required to be made and when the services are rendered by the employees.

Defined benefit plans

Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses and the effect of the asset ceiling (if any, excluding interest), are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

ii. Other long-term employee benefits

Compensated absences

The employees can carry forward a portion of the unutilised accrued compensated absences and utilise it in future service periods or receive cash compensation on termination of employment. Since the compensated absences do not fall due wholly within twelve months after the end of such period, the benefit is classified as a long-term employee benefit. The Company records an obligation for such compensated absences in the period in which the employee renders the services that increase this entitlement. The obligation is measured on the basis of independent actuarial valuation using the projected unit credit method.

iii. Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the year in which the employee renders the related service. The cost of such compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

3.13 Leases

i. Determining whether an arrangement contains a lease

At inception of an arrangement, it is determined whether the arrangement is or contains a lease. At inception or on reassessment of the arrangement that contains a lease, the payments and other consideration required by such an arrangement are separated into those for the lease and those for other elements on the basis of their relative fair values. If it is concluded for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. The liability is reduced as payments are made and an imputed finance cost on the liability is recognised using the incremental borrowing rate.

ii. Lease payments

Payments made under operating leases are generally recognised in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

3.14 Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set off against future income tax liability.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

3.15 Borrowing cost

Borrowing costs are interest and other costs incurred in connection with the borrowings of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of the asset. Other borrowings costs are recognized as an expense in the statement of profit and loss account on an accrual basis using the effective interest method.

3.16 Cash and cash equivalents

Cash and cash equivalents comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.17 Segment reporting- Identification of segments:

An operating segment is a component of the Company that engages in business activities from which it earn revenues and incur expenses, whose operating results are regularly reviewed by the Company's Chief Operating Decision Maker (CODM) to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

3.18 Earnings per share

The Company reports basic and diluted earnings per equity share in accordance with Ind AS 33, Earnings Per Share. Basic earnings per equity share is computed by dividing net profit / loss after tax attributable to the equity share holders for the year by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed and disclosed by dividing the net profit/ loss after tax attributable to the equity share holders for the year after giving impact of dilutive potential equity shares for the year by the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

3.19 Cash flow statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated. Cash flows in foreign currencies are accounted at the actual rates of exchange prevailing at the dates of the transactions.

3.20 Standard Issued But Not Yet Effective

Ministry of Corporate Affairs ("MCA"), through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified the following new and amendments to Ind ASs which the Company has not applied as they are effective from April 1, 2019

Ind AS 116 - Leases

Ind AS 116 Leases was notified on 30 March 2019 and it replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after 1 April 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e. the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e. the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessor accounting under Ind AS 116 is similar to existing Ind AS 17 accounting.

The Company will adopt Ind AS 116, effective annual reporting period beginning April 1, 2019. The Company will apply the standard to its leases, prospectively, using the modified prospective method with the cumulative effect of initially applying the standard, recognised on the date of initial application (April 1, 2019). Accordingly, the Company will not restate comparative information, instead, the cumulative effect of initially applying this Standard will be recognised as an adjustment to the opening balance of retained earnings as on April 1, 2019. The Company does not expect any significant impact of the amendment on its financial statements.

3.20 Standard Issued But Not Yet Effective (continued)

Ind AS 12 Income taxes (amendments relating to income tax consequences of dividend and uncertainty over income tax treatments)

The amendment relating to income tax consequences of dividend clarify that an Company shall recognise the income tax consequences of dividends in the statement of profit or loss, other comprehensive income or equity according to where the Company originally recognised those past transactions or events. The Company does not expect any impact from this pronouncement. It is relevant to note that the amendment does not amend situations where the Company pays a tax on dividend which is effectively a portion of dividends paid to taxation authorities on behalf of shareholders. Such amount paid or payable to taxation authorities continues to be charged to equity as part of dividend, in accordance with Ind AS 12.

The amendment to Appendix C of Ind AS 12 specifies that the amendment is to be applied to the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. It outlines the following: (1) the Company has to use judgement, to determine whether each tax treatment should be considered separately or whether some can be considered together. The decision should be based on the approach which provides better predictions of the resolution of the uncertainty (2) the Company is to assume that the taxation authority will have full knowledge of all relevant information while examining any amount (3) Company has to consider the probability of the relevant taxation authority accepting the tax treatment and the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates would depend upon the probability. The Company does not expect any significant impact of the amendment on its financial statements.

Ind AS 109 – Prepayment features with negative compensation

The amendments relate to the existing requirements in Ind AS 109 regarding termination rights in order to allow measurement at amortised cost (or, depending on the business model, at fair value through other comprehensive income) even in the case of negative compensation payments. The Company does not expect this amendment to have any impact on its financial statements.

Ind AS 19 – Plan amendment, curtailment or settlement

The amendments clarify that if a plan amendment, curtailment or settlement occurs, it is mandatory that the current service cost and the net interest for the period after the re-measurement are determined using the assumptions used for the re-measurement. In addition, amendments have been included to clarify the effect of a plan amendment, curtailment or settlement on the requirements regarding the asset ceiling. The Company does not expect this amendment to have any significant impact on its financial statements.

4 Explanation of transition to Ind AS

As stated in Note 2.1, these are the Company's first financial statements prepared in accordance with Ind AS. For the year ended March 31, 2018, the Company had prepared its financial statements in accordance with Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act ('previous GAAP').

The accounting policies set out in Note 3 have been applied in preparing these financial statements for the year ended March 31, 2019 including the comparative information for the year ended March 31, 2018 and the opening Ind AS balance sheet on the date of transition i.e. April 1, 2017.

In preparing its Ind AS balance sheet as at April 1, 2017 and in presenting the comparative information for the year ended March 31, 2018, the Company has adjusted amounts reported previously in financial statements prepared in accordance with previous GAAP. This note explains the principal adjustments made by the Company in restating its financial statements prepared in accordance with previous GAAP, and how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

Optional exemptions availed and mandatory exceptions

In preparing these financial statements, the Company has applied the below mentioned optional exemptions and mandatory exceptions.

4.1 Optional exemptions availed

(i) Property plant and equipment and intangible assets

As per Ind AS 101 an entity may elect to:

- (i) measure an item of property, plant and equipment at the date of transition at its fair value and use that fair value as its deemed cost at that date
- (ii) use a previous GAAP revaluation of an item of property, plant and equipment at or before the date of transition as deemed cost at the date of the revaluation, provided the revaluation was, at the date of the revaluation, broadly comparable to:
 - fair value;
 - or cost or depreciated cost under Ind AS adjusted to reflect, for example, changes in a general or specific price index.

The elections under (i) and (ii) above are also available for intangible assets that meets the recognition criteria in Ind AS 38, *Intangible Assets*, (including reliable measurement of original cost); and criteria in Ind AS 38 for revaluation (including the existence of an active market).

(iii) use carrying values of property, plant and equipment and intangible assets as on the date of transition to Ind AS (which are measured in accordance with previous GAAP and after making adjustments relating to decommissioning liabilities prescribed under Ind AS 101) if there has been no change in its functional currency on the date of transition.

As permitted by Ind AS 101, the Company has elected to continue with the carrying values under previous GAAP for all the items of property, plant and equipment and intangible assets. The carrying values of property, plant and equipment as aforesaid are after making adjustments relating to decommissioning liabilities, if any.

4.2 Mandatory exceptions

(i) Accounting Estimates

As per Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that those estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies.

As per Ind AS 101, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition (for preparing opening Ind AS balance sheet) or at the end of the comparative period (for presenting comparative information as per Ind AS).

The Company's estimates under Ind AS are consistent with the above requirement. Key estimates considered in preparation of the financial statements that were not required under the previous GAAP are listed below:

- Impairment of financial ASSETS based on the expected credit loss model
- Determination of Discount value for financial instruments carried at amortised cost

4.2 Mandatory exceptions (continued)

(ii) Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable.

Accordingly, the Company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of the financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

(iii) Impairment of financial assets

The Company has applied the impairment requirement of Ind-AS 109 on all financial assets recognised as per Ind-AS 109 retrospectively except:

1. The Company has sought to approximate the credit risk on initial recognition by considering all reasonable and supportable information that is available without undue cost or effort.
2. The Company has determined whether the financial asset is having low credit risk, as specified in Ind-AS 109, and whether there is a significant increase in credit risk since initial recognition of financial assets by applying rebuttable presumption of 60 days past due.
3. If the Company is unable to determine whether there is a significant increase in credit risk since initial recognition of a financial asset, without involving undue cost or effort, the Company shall recognise a loss amount equal to life time expected losses at each reporting date till the financial asset is derecognised.

Accordingly, the Company has developed ECL model for testing of impairment of its financial assets.

4.3 Reconciliation of equity

Other comprehensive income		-
Total Comprehensive Income for the year under Ind AS		226.94

4.5 Notes to Ind AS first-time adoption

(i) Premium and Dividend on redeemable preference shares issued issued to holding company

Under IGAAP, the classification of financial statements was based on their legal form rather than economic substance. On transition to Ind AS, 8% redeemable preference shares issued to Northern Arc Capital Limited and IFMR Mezzanine Finance Private Limited has been reclassified from equity to financial liability as per the requirements of Ind AS 32. Accordingly, the related premium has been recognised as finance cost under Ind AS.

The impact arising from the change is summarized as follows:

	Year ended March 31, 2018	
Statement of profit and loss		
Dividend and dividend distribution tax paid on redeemable preference shares		2.93
Premium expenditure on redeemable preference shares issued		6.08
Adjustment before income tax		9.01
	As at April 1, 2017	As at March 31, 2018
Balance sheet		
Redeemable preference shares	10.55	16.63
Adjustment to retained earnings	10.55	16.63

(ii) Loss allowance

On transition to Ind AS, the Company has recognised impairment loss on financial assets measured at amortised cost based on the expected credit loss model as required by Ind AS 109. Consequently, financial assets measured at amortised cost have been reduced with a corresponding decrease/ increase in retained earnings on the date of transition and there has been an incremental provision for the year ended March 31, 2018. Under Ind AS, the expected credit loss has been disclosed as a deduction from financial assets.

	Year ended March 31, 2018	
Statement of profit and loss - Increase / (decrease) in profit		
Impairment loss allowance on financial assets		(0.72)
Adjustment before income tax		(0.72)
	As at April 1, 2017	As at March 31, 2018
Balance sheet		
(Decrease)/ Increase impairment loss allowance on financial assets	(0.49)	(1.21)
Adjustment to retained earnings	(0.49)	(1.21)

4.5 Notes to Ind AS first-time adoption (continued)

(iii) Fair valuation of investments

In accordance with Ind AS, financial assets representing investment in Mutual funds have been fair valued. The Company has investment in Mutual funds as fair value through profit or loss, as permitted by Ind AS 109. Under the previous GAAP, such investments were carried at cost.

The impact arising from the change is summarized as follows:

	Year ended March 31, 2018	
Statement of profit and loss		
Other income:- Financial assets at FVTPL - net change in fair value		0.97
Adjustment before income tax		0.97
	As at	As at
	April 1, 2017	March 31, 2018
Balance sheet		
Investments- FVTPL	-	0.97
Adjustment to retained earnings	-	0.97

(iv) Remeasurement of post-employment benefit obligations

Under the previous GAAP, actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability was forming part of the profit and loss for the year. However under Ind-AS 19, such actuarial gains and losses are recognised in other comprehensive income. However, there is no impact on the total comprehensive income and total equity as at April 1, 2017 and March 31, 2018.

The impact arising from the change is summarized as follows:

	Year ended March 31, 2018
Statement of profit and loss	
Employee benefits expenses	(0.21)
	As at
	March 31, 2018
Other comprehensive income	
Remeasurement of defined benefit liability/ (assets)	0.21
Adjustment before income tax	-

(v) Deferred tax

IGAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 requires entities to account for deferred taxes using the Balance Sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the Balance Sheet and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under IGAAP.

In addition, the various transitional adjustments lead to temporary differences. According to the accounting policies, the Company has to account for such differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings, OCI or profit and loss respectively.

Northern Arc Investment Adviser Services Private Limited
Notes to the financial statements for the year ended March 31, 2019
 (All amounts are in Indian Rupees in lakhs)

26 Income tax

A The components of income tax expense for the years ended 31 March 2019 and 31 March 2018 are as follows:

	Year ended March 31, 2019	Year ended March 31, 2018
Current tax	28.77	53.05
Deferred tax charge/ (Credit)	0.15	(0.15)
Less: MAT credit entitlement	(7.43)	(28.36)
	21.49	24.54

B Reconciliation of the total tax charge

The tax charge shown in the statement of profit and loss differs from the tax charge that would apply if all profits had been charged at India corporate tax rate. A reconciliation between the tax expense and the accounting profit multiplied by India's domestic tax rate for the years ended 31 March 2019 and 2018 is, as follows:-

	Year ended March 31, 2019	Year ended March 31, 2018
Profit before tax	100.89	251.65
Less: carry forward loss	-	125.67
Taxable income	100.89	125.98
Applicable tax rate	27.82%	20.39%
Computed expected tax expense	28.07	51.31
Change in tax rate	0.01	-
Permanent differences	0.84	1.59
Tax expenses recognised in the statement of profit and loss	28.92	52.90
Effective tax rate	28.67%	21.02%

C Deferred tax

The following table shows deferred tax recorded in the balance sheet and changes recorded in the Income tax expense.

Component of Deferred tax asset / (liability)

	As at 31 Mar 2018	Statement of profit and loss	Other comprehensive income	MAT utilization	As at 31 Mar 2019
Property, plant and equipment	0.02	(0.02)	-	-	-
Provision for employee benefits	0.17	(0.13)	(0.10)	-	(0.06)
	0.19	(0.15)	(0.10)	-	(0.06)
Minimum alternative tax	28.36	7.43	-	(7.58)	28.21
	28.55	7.28	(0.10)	(7.58)	28.15
	As at 1 Apr 2017	Statement of profit and loss	Other comprehensive income	MAT utilization	As at 31 Mar 2018
Property, plant and equipment	-	0.02	-	-	0.02
Provision for employee benefits	-	0.13	0.04	-	0.17
	-	0.15	0.04	-	0.19
Minimum alternative tax	-	28.36	-	-	28.36
	-	28.51	0.04	-	28.55

27 Financial instrument

A Fair value measurement

Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions i.e., exit price. This is regardless of whether that price is directly observable or estimated using a valuation technique.

Financial instruments by category

The carrying value and fair value of financial instruments measured at fair value as of March 31, 2019 were as follows:

Particulars	Note	Carrying amount		Fair value			Total
		FVTPL	Level 1	Level 2	Level 3		
Investments							
- Investment in Mutual Funds	7	104.56	104.56	-	-		104.56

The carrying value and fair value of financial instruments measured at fair value as of March 31, 2018 were as follows:

Particulars	Note	Carrying amount		Fair value			Total
		FVTPL	Level 1	Level 2	Level 3		
Investments							
- Investment in Mutual Funds	7	77.97	77.97	-	-		77.97

Sensitivity analysis - Increase/ decrease of 100 basis points

	As at 31 March 2019		As at 31 March 2018		
	Increase	Decrease	Increase	Decrease	
Investments					
- Mutual fund investments		1.28	(1.28)	0.25	(0.25)

The carrying value and fair value of other financial instruments by categories as of March 31, 2019 were as follows:

Particulars	Carrying Value				
	Amortised cost	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value:					
Trade receivables	35.33	-	-	-	-
Cash and cash equivalents	28.81	-	-	-	-
Other financial assets	79.79				
Financial liabilities not measured at fair value:					
Trade payables	56.20	-	-	-	-

The carrying value and fair value of other financial instruments by categories as of March 31, 2018 were as follows:

Particulars	Carrying Value				
	Amortised cost	Level 1	Level 2	Level 3	Total
Financial assets not measured at fair value:					
Cash and cash equivalents	5.23	-	-	-	-
Other financial assets	188.14				
Financial liabilities not measured at fair value:					
Trade payables	32.23	-	-	-	-
Borrowings	92.63	-	-	-	-

27 Financial instrument (Continued)

The carrying value and fair value of other financial instruments by categories as of March 31, 2017 were as follows:

Particulars	Carrying Value			Total
	Amortised cost	Level 1	Level 2	
Financial assets not measured at fair value:				
Cash and cash equivalents	22.50	-	-	-
Other financial assets	27.26	-	-	-
Financial liabilities not measured at fair value:				
Trade payables	9.97	-	-	-
Borrowings	117.55	-	-	-
Other financial liabilities	6.62	-	-	-

B Measurement of fair values

Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the financial statements. These fair values were calculated for disclosure purposes only.

Financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts, which are net of impairment, are a reasonable approximation of their fair value. Such instruments include: cash and cash equivalents, trade receivables, other financial assets, trade payables and other financial liabilities without a specific maturity.

Borrowings

Borrowings are primarily fixed rate instruments. The interest rates approximates the current market rates for similar instruments with similar terms. Accordingly, the fair value has been assumed to be equal to the carrying amount.

Transfers between levels I and II

There has been no transfer in between level I and level II.

C Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital, as well as the level of dividends to equity shareholders.

The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowing and the advantages and security afforded by a sound capital position.

The Company's adjusted net debt to equity ratio is as follows:

	As at March 31, 2019	As at March 31, 2018	As at April 1, 2017
Total liabilities	104.44	162.76	135.21
Less: cash and cash equivalents	(28.81)	(5.23)	(22.50)
Adjusted net debt	75.63	157.53	112.71
Total equity	225.28	145.61	(81.33)
Adjusted net debt to equity ratio	0.34	1.08	(1.39)

28 Financial risk management objectives and policies

The Company's principal borrowings comprise redeemable preference shares. The main purpose of these borrowings is to finance the Company's operations and to support its operations. The Company's financial assets primarily includes investments, trade receivables, cash and cash equivalents and other financial assets that derive directly from its operations.

The Company is exposed to credit risk, liquidity risk and market risk. The Company's board of directors has an overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

28 Financial risk management objectives and policies (continued)

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counter-party to financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from customers and loans

The carrying amounts of financial assets represent the maximum credit risk exposure.

A. Receivables including unbilled revenue

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry.

The Company's exposure to credit risk for receivables by type of counterparty is as follows. All these exposures are with in India.

Particulars	Carrying Amount		
	As at Mar 31, 2019	As at Mar 31, 2018	As at Mar 31, 2017
Receivables	35.40	-	-
Less : Allowance for bad and doubtful debts	(0.07)	-	-
	35.33	-	-
Unbilled revenue	80.55	189.35	27.75
Less : Impairment loss allowance	(0.76)	(1.21)	(0.49)
	79.79	188.14	27.26

An impairment analysis is performed at each reporting date based on the facts and circumstances existing on that date to identify expected losses on account of time value of money and credit risk. For the purposes of this analysis, the receivables are categorised into groups based on days past due and the type of risk exposures. Each group is then assessed for impairment using the Expected Credit Loss (ECL) model as per the provisions of Ind AS 109 - financial instruments.

Staging:

As per the provision of Ind AS 109 general approach all financial instruments are allocated to stage 1 on initial recognition. However, if a significant increase in credit risk is identified at the reporting date compared with the initial recognition, then an instrument is transferred to stage 2. If there is objective evidence of impairment, then the asset is credit impaired and transferred to stage 3.

The Company considers a financial instrument defaulted and therefore Stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

For financial assets in stage 1, the impairment calculated based on defaults that are possible in next twelve months, whereas for financial instrument in stage 2 and stage 3 the ECL calculation considers default event for the lifespan of the instrument.

As per Ind AS 109, Company assesses whether there is a significant increase in credit risk at the reporting date from the initial recognition. Company has staged the assets based on the Day past dues criteria and other market factors which significantly impacts the portfolio.

Days past dues status	Stage	Provisions
Current	Stage 1	12 Months Provision
1-30 Days	Stage 1	12 Months Provision
31-90 Days	Stage 2	Lifetime Provision
90+ Days	Stage 3	Lifetime Provision

Grouping

As per Ind AS 109, Company is required to group the portfolio based on the shared risk characteristics. Company has assessed the risk and its impact on the various portfolios and has divided the portfolio into following groups:

- Trade receivables
- Unbilled revenue

Expected credit loss ("ECL"):

ECL on financial assets is an unbiased probability weighted amount based out of possible outcomes after considering risk of credit loss even if probability is low. ECL is calculated based on the following components:

- a. Marginal probability of default ("MPD")
- b. Loss given default ("LGD")
- c. Exposure at default ("EAD")
- d. Discount factor ("D")

28 Financial risk management objectives and policies (Continued)

Marginal probability of default:

PD is defined as the probability of whether borrowers will default on their obligations in the future. Historical PD is derived from the internal data which is calibrated with forward looking macroeconomic factors.

For computation of probability of default ("PD"), Pluto Tash Model was used to forecast the PD term structure over lifetime of loans. As per given long term PD and current macroeconomic conditions, conditional PD corresponding to current macroeconomic condition is estimated. The Company has worked out on PD based on the last four years historical data.

Marginal probability:

The PDs derived from the ARIMA model, are the cumulative PDs, stating that the borrower can default in any of the given years, however to compute the loss for any given year, these cumulative PDs have to be converted to marginal PDs. Marginal PDs is probability that the obligor will default in a given year, conditional on it having survived till the end of the previous year.

Conditional marginal probability:

As per Ind AS 109, expected loss has to be calculated as an unbiased and probability-weighted amount for multiple scenarios.

The probability of default was calculated for 3 scenarios: upside (15%), downside (15%) and base (70%). This weightage has been decided on best practices and expert judgment. Marginal conditional probability was calculated for all 3 possible scenarios and one conditional PD was arrived as conditional weighted probability.

LGD

LGD is an estimate of the loss from a transaction given that a default occurs. Under Ind AS 109, lifetime LGD's are defined as a collection of LGD's estimates applicable to different future periods. Various approaches are available to compute the LGD. The Company has considered the workout LGD approach by considering historical losses and recoveries. The following steps are performed to calculate the LGD:

- 1) Analysis of historical credit impaired accounts at cohort level.
- 2) The computation consists of five components, which are:
 - a) Outstanding balance (POS)
 - b) Recovery amount (discounted yearly) by initial contractual rate.
 - c) Expected recovery amount (for incomplete recoveries), discounted to reporting date using initial contractual rate.
 - d) Collateral (security) amount

The formula for the computation is as below:

$$\% \text{ Recovery rate} = (\text{discounted recovery amount} + \text{security amount} + \text{discounted estimated recovery}) / (\text{total POS})$$

$$\% \text{ LGD} = 1 - \text{recovery rate}$$

EAD:

As per Ind AS 109, EAD is estimation of the extent to which the financial entity may be exposed to counterparty in the event of default and at the time of counterparty's default. The Company has modelled EAD based on the contractual and behavioural cash flows till the lifetime of the loans considering the expected prepayments.

The Company has considered expected cash flows of all the trade receivables and unbilled revenue at DPD bucket level which was used for computation of ECL.

Discounting:

As per Ind AS 109, ECL is computed by estimating the timing of the expected credit shortfalls associated with the defaults and discounting them using effective interest rate.

ECL computation:

Conditional ECL at DPD pool level was computed with the following method:

$$\text{Conditional ECL for year (yt)} = \text{EAD (yt)} * \text{conditional PD (yt)} * \text{LGD (yt)} * \text{discount factor (yt)}$$

The calculation is based on provision matrix which considers actual historical data adjusted appropriately for the future expectations and probabilities. Proportion of expected credit loss provided for across the stage is summarised below:

	Provisions	As at 31 March 2019	As at 31 March 2018	As at 1 April 2017
Stage 1	12 month provision	0.83	1.21	0.49
Stage 2	Life time provision	-	-	-
Stage 3	Life time provision	-	-	-
Amount of expected credit loss provided for		0.83	1.21	0.49

28 Financial risk management objectives and policies(Continued)

The loss rates are based on actual credit loss experience over past years. These loss rates are then adjusted appropriately to reflect differences between current and historical economic conditions and the Company's view of economic conditions over the expected lives of the loan receivables. Movement in provision of expected credit loss has been provided in below note.

Particulars	As at	As at
	31 March 2019	31 March 2018
ECL allowance - opening balance	1.21	0.49
Addition during the year	-	0.72
Reversal during the year	(0.38)	-
Write offs during the year	-	-
Closing provision of ECL	0.83	1.21

B. Investments

Investments primarily represents investments in mutual funds which are fair valued through profit and loss and hence no impairment loss allowance is made in accordance with Ind AS 109.

C. Cash and cash equivalents

Credit risk on cash and cash equivalent is limited as the Company does not have any deposits at all.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due.

The Company is monitoring its liquidity risk by estimating the future inflows and outflows during the start of the year and planned accordingly the funding requirement. The Company manages its liquidity by unutilised cash credit facility and term loans.

The composition of the Company's liability mix ensures healthy asset liability maturity pattern and well diverse resource mix.

The table below summarises the maturity profile of the Company's non derivative financial liabilities based on contractual undiscounted payments along with its carrying value as at the balance sheet date.

Particulars	Upto 1 year	Over 1 year to 3 year	Over 3 year to 5 year	Over 5 year
As at 31 March 2019				
Borrowings	-	-	-	-
As at 31 March 2018				
Borrowings	-	92.63	-	-
As at 1 April 2017				
Borrowings	-	117.55	-	-

(iii) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk includes interest rate risk and foreign currency risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's does not have any variable rate financial instruments and thus have no exposure to the risk of changes in market interest rates.

(iv) Foreign currency risk

The Company does not have any instrument denominated or traded in foreign currency. Hence, such risk does not affect the Company.

29 Employee Benefits

29.1 Defined Contribution Plan

The Company makes specified monthly contributions towards employee provident fund to Government administered provident fund scheme which is a defined contribution plan. The Company's contribution is recognized as an expenses in the statement of profit and loss during the period in which the employee renders the related service. The amount recognised as an expense towards contribution to provident fund for the year aggregated to INR 0.11 lakhs (March 31, 2018: INR 0.29 lakhs).

29.2 Defined Benefit Plans

The Company's gratuity benefit scheme is a defined plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their services in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognised past services and the fair value of any plan assets are deducted. The Calculation of the Company's obligation under the plan is performed annually by a qualified actuary using the projected unit credit method.

Details of actuarial valuation of gratuity pursuant to the Ind AS 19

	March 31, 2019	March 31, 2018
A. Change in present value of obligations		
Present value of obligations at the beginning of the year	0.27	0.03
Current service cost	0.14	0.03
Interest cost	0.02	-
Past service cost	-	-
Benefits settled	-	-
Actuarial (gain)/ loss	(0.37)	0.21
Present value of obligations at the end of the year	0.06	0.27
B. Change in plan assets		
Fair value of plan assets at the beginning of the year	-	-
Expected return on plan assets	-	-
Actuarial gains/ (loss)	-	-
Employer contributions	-	-
Benefits settled	-	-
Fair value of plan assets at the end of the year	-	-
C. Actual Return on plan assets		
Expected return on plan assets	-	-
Actuarial gains/ (loss) on plan assets	-	-
Actual return on plan assets	-	-
D. Reconciliation of present value of the obligation and the fair value of the plan assets		
Change in projected benefit obligation		
Present value of obligations at the end of the year	0.06	0.27
Fair value of plan assets	-	-
Net liability recognised in balance sheet	0.06	0.27

The liability in respect of the gratuity plan comprises of the following non-current and current portions:

Current *	-	-
Non-current	0.06	0.28
	0.06	0.28

* amount less than 0.01

E. Expense recognised in statement of profit and loss and other comprehensive income

	March 31, 2019	March 31, 2018
Current service cost	0.14	0.03
Interest on obligation	0.02	-
Past service cost	-	-
Expected return on plan assets	-	-
Net actuarial (gain)/ loss recognised in the year	(0.37)	0.21
Total included in 'employee benefits'	(0.21)	0.24

29 Employee benefits (continued)

F. Assumptions at balance sheet date

	March 31, 2019	March 31, 2018
Discount rate	7.72%	7.70%
Salary escalation	10.00%	10.00%
Mortality rate	Indian Assured	Indian Assured
	Lives (2006 -08)	Lives (2006 -08)
Attrition rate	1.00%	1.00%

Notes:

- The estimates in future salary increases, considered in actuarial valuation, takes account of inflation, seniority promotion and other relevant factors, such as supply and demand in the employee market.
- Discount rate is based on the prevailing market yields of Indian Government Bonds as at the balance sheet date for the estimated term of the obligation.

G. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Year ended 31 March 2019		Year ended 31 March 2018	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	0.05	0.08	0.22	0.36
Future salary growth (1% movement)	0.08	0.05	0.36	0.22

H. Five year Information

	March 31, 2019	March 31, 2018	March 31, 2017	March 31, 2016	March 31, 2015
Present Value of obligations	0.06	0.28	0.03	1.81	7.46
Fair value of plan assets	-	-	-	-	-
(Surplus)/ deficit in the plan	-	-	-	-	-
Experience adjustments arising on plan liabilities - (gain)/ loss	(0.37)	0.21	(2.40)	(9.12)	3.20
Experience adjustments arising on plan assets - (gain)/ loss	-	-	-	-	-

30 Segment Accounting:

Operating segments

The Company's operations predominantly relate to financial advisory services. The information relating to this operating segment is reviewed regularly by the Company's Board of Directors (Chief Operating Decision Maker) to make decisions about resources to be allocated and to assess its performance. The CODM considers the entire business of the Company on a holistic basis to make operating decisions and thus there are no segregated operating segments. The CODM of the Company reviews the operating results of the Company as a whole and therefore not more than one reportable segment is required to be disclosed by the Company as envisaged by Ind AS 108 Operating Segments.

The company does not have any separate geographic segment other than India. As such there are no separate reportable segments as per IND AS 108 Operating Segments.

31 Operating leases

The Company has cancellable operating lease agreements for office space, the term of which is for a period of one year. For the year ended March 31, 2019, an amount of INR 0.64 lakhs (March 31, 2018: INR 2.15 lakhs) was recorded as expenses towards lease rentals in the statement of profit and loss.

Northern Arc Investment Adviser Services Private Limited

Notes to the financial statements for the year ended March 31, 2019 (Continued)

(All amounts are in Indian Rupees in lakhs)

32 Contingent Liabilities and Capital commitments (to the extent not provided for)

The Company doesn't have any contingent liabilities and capital commitments.

33 Related party disclosures

Related party relationships and transactions are as identified by the management.

Significant influence in the Holding Company	Dvara Trust
Ultimate Holding Company	IFMR Holdings Private Limited (upto February 26, 2019)
Holding Company	Northern Arc Capital Limited

Fellow Subsidiaries with whom the Company had transactions during the year:

Northern Arc Foundation
 Northern Arc Investment Managers Private Limited
 IFMR Mezzanine Finance Private Limited (till December 21, 2017)

Key management personnel

Gaurav Kumar - Chief Executive Officer (till 9 May 2017)

Remuneration is paid by the holding company to the above Key Management personnel

Transactions with related parties during the year:

Related Party	Transaction	Year ended March 31, 2019	Year ended March 31, 2018
Dvara Trust	Infrastructure Cost	0.67	2.00
	Reimbursement of expenses	0.23	0.59
Northern Arc Capital Limited	Purchase of fixed assets	0.58	-
	Redemption of preference shares	76.00	-
	Premium Paid on Preference shares	22.29	-
	Professional fee	44.16	-
	Reimbursement of expenses	-	0.15
	Reimbursement of income	-	0.21
IFMR Mezzanine Finance Private Limited	Redemption of preference shares	-	31.00
	Preference dividend	-	7.93

Outstanding balances with related parties as on balance sheet date:

Related Party	Transaction	As at March 31, 2019	As at March 31, 2018	As at April 1, 2017
Dvara Trust	Trade payable	0.20	1.12	1.12
Northern Arc Capital Limited	Trade payable	54.98	0.67	-
	Equity share capital	127.80	127.80	127.80
	Redeemable preference shares	-	76.00	76.00
IFMR Mezzanine Finance Private Limited	Redeemable preference shares	-	-	31.00

34 Corporate Social Responsibility ("CSR")

The Company does not satisfy the criteria specified under the provisions of Section 135 of the Companies Act, 2013 read with Schedule VII and the Companies (Corporate Social Responsibility) Rules, 2014 and hence, no expenditure towards CSR was made for the year ended March 31, 2019 and for the previous year ended March 31, 2018.

Northern Arc Investment Adviser Services Private Limited

36 Disclosure under Micro, Small and Medium Enterprises Development Act, 2006

The Ministry of Micro, Small and Medium Enterprises has issued an office memorandum dated August 26, 2008 which recommends that the Micro and Small Enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum in accordance with the Micro, Small and Medium Enterprise Development Act, 2006 ('the Act'). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at March 31, 2019 has been made in the financial statements based on information received and available with the Company. Further in view of the Management, the impact of interest, if any, that may be payable in accordance with the provisions of the Act is not expected to be material. The Company has not received any claim for interest from any supplier as at the balance sheet date.

Particulars	As at March 31, 2019	As at March 31, 2018	As at April 1, 2017
The principal amount and the interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting period			
Principal	-	-	-
Interest	-	-	-
The amount of interest paid by the buyer in terms of section 16 of the Micro, Small and Medium Enterprises Development Act, 2006, along with the amount of the payment made to the supplier beyond the appointed day during each accounting year;	-	-	-
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006;	-	-	-
The amount of interest accrued and remaining unpaid at the end of each accounting year; and	-	-	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006.	-	-	-
