This funding will help Ecozen drive scale in its current businesses while furthering its position as a leader in sustainable technologies

Ecozen, a climate-smart technology solutions provider, has raised over \$23 million in debt funding from responsAbility Investments AG, Northern Arc Capital Ltd, Maanaveeya Development & Finance Pvt Ltd, and others.

A media statement said this funding will help Ecozen drive scale in its current businesses while furthering its position as a leader in sustainable technologies.

Ecozen has recorded a CAGR of over 83 per cent in revenue growth over the past three years. The company has manufactured over 3,00,000 Ecotron solar pump controllers to date, with 1,00,000 units produced between March and December 2024. The statement said these innovations have contributed to the abatement of more than 2 million tonnes of greenhouse gases, including a 6,60,000 tonnes in 2024 alone. In addition, Ecozen's Omni controller is enabling existing customers to utilize solar energy across a broader range of applications, it said.
