Interest Rate Model

Code on Interest Rate Model, Policies and Procedure on determining Interest Rates and other charges

The Reserve Bank of India (RBI) had advised that Boards of NBFCs should lay out appropriate internal principles and procedures in determining interest rates, processing and other charges. This was considered in view of the several complaints RBI received regarding levying of excessive interest and charges on certain loans by NBFCs. While reiterating these guidelines RBI further advised the NBFCs to adopt appropriate interest rate model taking into account relevant factors and to disclose the rate of interest, gradations of risk and rationale for charging different rates of interest.

Keeping in view the RBI's guidelines as cited above and our borrowers being institutional borrowers the following internal guidelines, policies, procedures, and interest rate model shall be taken into account when determining interest rates or other charges.

- The interest rates applicable to loans shall be approved by the Credit Committee from time to time.
- Interest rates charged by the Company depends on a variety of factors affecting the Company including cost of borrowed funds, matching tenor cost, market liquidity, RBI policies on credit flow, offerings by competition, market reputation, cost of operations, disbursements, cost of capital required, inherent credit and default risk in the counterparty and products, industry trends, etc. Identical products with identical tenor and availed during the same period may attract different interest rates for different customers. Interest rates could vary depending upon consideration of all or combination of multiple factors including but not limited to the following:
 - Credit and default risk in the related business segment;
 - Historical performance of similar homogeneous clients;
 - Profile of the applicant;
 - Industry segment;
 - Repayment track record of the applicant;
 - Nature and value of collateral security;
 - Secured vs unsecured loan;
 - Seniority of the loan;
 - Loan ticket size;
 - Credit rating of the applicant and corporate guarantor, if any;
 - Loan tenor;
 - Location delinquency and collection performance (applicable for retail);
 - Other indebtedness of the applicant.
- Interest rates will be intimated to the customers at the time of sanction of the loan and the interest and principal repayment schedule will be made available to the customer.

- The interest shall be deemed payable immediately on the due date as communicated and no grace period for payment of interest is allowed.
- Besides normal interest, the company may levy additional interest for ad hoc facilities, penal interest for any delay or default in making payments of any dues. This additional or penal interest for different products or facilities will be approved by the Credit Committee.
- Besides interest, other financial charges like processing fees, late payments, RTGS / other remittance charges, etc. may be levied by the company under due communication to the customer, wherever considered necessary. Any revision in these charges would be with prospective effect.
- Claims for refund or waiver of charges / penal interest / additional interest will normally not be entertained by the company and it is the sole discretion of the company to deal with such requests if any.
